

**Natural Channel Systems Conference 2023**  
**Balance – Balancing Driving and Resisting Forces to Achieve**  
**Project Goals**  
**June 25-28, 2023**  
**University of Guelph**

<https://naturalchannels.ca/>

**We are only 141 days away from our in-person 7<sup>th</sup> Natural Channels Conference**

Natural Channels is Canada's premier conference on natural channel systems. We bring together all those who assess, study, plan, manage and regulate river corridors; this includes consultants, academics, constructors, NGOs and all levels of government agencies. We come together to share and learn from each other so that we improve how we restore and enhance river corridors with respect to functions and habitat.

**Abstracts Submission is Now Open!**

Please complete your abstract submission by **March 31, 2023**. Refer to the [conference website](#) for further details. **We are unable to offer any extensions to this deadline.** Plan to submit your abstracts by the submission deadline! The program committee will advise all accepted abstract contributors in April 2023.

**Conference REGISTRATION to open this Spring**

[Registration](#) for the conference will open this Spring along with registration for training opportunities. There are limited spaces for training. For information on registration costs, please refer to the [conference website](#).

## Canada's Premier Stormwater & Erosion and Sediment Control Conference

[sourcetostream.com](http://sourcetostream.com)

**March 22 - 23, 2023**

**Pearson Convention Center, Brampton, ON**

### Canada's Premier Stormwater and Erosion and Sediment Control Conference is Back!

Source to Stream – formerly TRIECA – will have a new look and feel but the same opportunities and high quality that you've come to expect. The event will showcase 40 talks and 2 panel presentations from leading industry professionals specializing in low impact development, erosion and sediment control, and stream restoration, as well as tons of opportunities to learn from and engage with industry peers and thought-leaders at our trade show.

Take advantage of early bird deadlines by getting your conference pass before February 10, 2023! Whether you're looking to attend, exhibit, sponsor, or submit your student research, all the information you need is available at <http://www.sourcetostream.com>
